

Why You Should Choose the Berkley Center for Reproductive Wellness

1. Mike Berkley, Licensed Acupuncturist and Board Certified Herbalist is the first acupuncturist in the United States to specialize in the treatment of infertility. When you are being treated by an acupuncturist who does not specialize in this field 100% you are not getting 100%. Here is a quick test that you can do to see if your acupuncturist *specializes in the treatment of infertility*. Visit their website and see if they treat things other than infertility. If they do, they are *not* infertility specialists. Your reproductive endocrinologist *only* treats infertility. He or she does not treat ear infections. At The Berkley Center for Reproductive Wellness, we **ONLY** treat infertility.
2. Mike has been specializing in the treatment and care of those trying-to-conceive for 14 years – nothing else but infertility treatment for 14 years.
3. Mike is known and respected by reproductive endocrinologists throughout New York City. Ask yours if he or she knows him and what they think about him.
4. Mike or one of his trained team members is available 24/7/365 to perform pre and post embryo-transfer acupuncture for you. On weekends, on Christmas, on Thanksgiving; anytime. Does your acupuncturist provide this type of commitment?
5. Mike is not only respected by reproductive endocrinologists throughout the country but also by acupuncturists who have studied complementary reproductive medicine with him.
6. The Berkley Center for Reproductive Medicine is the only complementary reproductive medicine center with a Board of Advisors made up of some of the best reproductive endocrinologists in the U.S. This means that anytime Mike has a question or a concern, he can turn to a Board member and seek and obtain advice. This empowers him so he can empower you.
7. The Berkley Center for Reproductive Wellness is the **ONLY** complementary reproductive medicine center in the U.S. that offers a full, 100% money-back, no-questions-asked guarantee. Ask for details when you call us at 212-685-0985.
8. We have Doula on staff.
9. We have massage therapists on staff.
10. Mike is available to answer your questions via email 7 days per week.
11. We offer **FREE** mini-consultations before you commit to being a patient here. This way you get to meet with Mike, have some of your questions answered, take a tour of our state-of-the-art beautiful facility and decide if Mike and The Berkley Center for Reproductive Wellness are right for you – without spending a penny.
